

## Solution Brief

# AWS Hybrid Cloud Assessment (MAP\* Mobilise)

## Unlocking the pathway to building cloud readiness.

Running workloads in the Cloud can provide significant benefits, driving flexibility, agility, and scale. However, the journey to the Cloud can be complex with many projects stalling due to challenges encountered while undertaking the task.

By using the Insight AWS Hybrid Cloud Assessment service, your organisation can benefit from a comprehensive solution that enables you to successfully plan and design your migration projects.

No matter where you are on your journey, we will help you identify the right path to achieve your AWS cloud goals.

## Benefits

- Provided by Insight's certified AWS specialists.
- AWS landing zone designed and deployed to AWS best practice.
- Gain enhanced visibility of applications and infrastructure.
- Detailed portfolio discovery mapped to the 7 R's process for migration.
- Detailed workload migration plan.
- Aligns with the AWS MAP Mobilise Funding programme (Fully funded offering - pending registration approval)
- Accelerate migration and cloud adoption.
- Define migration decisions and detail a clear approach to achieve the required future state.

\* The AWS Migration Acceleration Program (MAP) is a comprehensive and proven cloud migration program based upon AWS's experience migrating thousands of enterprise clients to the cloud.

## Business challenge

Today, many businesses recognise the AWS Cloud as an established platform for delivering key services. AWS Cloud provides agility, flexibility, scale, and potential cost advantages. However, building a detailed migration plan and successfully deploying an AWS landing zone can be challenging. A holistic approach is required; people and operational processes may need to evolve, costs need to be predictable as cloud usage scales both up and down, you need the confidence that migration projects are successful and deliver value to your business.

To ensure you realise this huge potential, you need to assess your requirements and the benefits offered by AWS. However, getting it right requires a wealth of AWS experience and expertise. Without the required specialised knowledge, there is a real risk of implementing a migration that doesn't deliver on its promises.

## Our Solution

Our AWS Hybrid Cloud Assessment Mobilise is a comprehensive, expert-led service designed to assist organisations that are committed to migrating to AWS and are looking to move to the next phase of migration. Through our structured approach, our team of AWS experts provides strategic guidance to help businesses successfully carry out AWS migration projects.

Insight's AWS Hybrid Cloud Assessment Mobilise service was created to provide a comprehensive migration and AWS landing zone deployment plan to enable a frictionless migration to the cloud. Our service delivers a detailed assessment of your current infrastructure and business operations, and a blueprint for future projects.

### Our service includes:

- Detailed consultative briefing and workshops covering vision and goals, existing infrastructure, applications, people and processes, and adoption and change.
- Current 'as-is' environment assessment including a migration gap analysis and RAID report.
- Application and infrastructure dependencies discovery and mapping.
- Target 'to-be' architectural design and recommendations including options appraisal with outlined cost/benefits.
- Recommendations for business requirements, licensing, support, performance, availability, backup and DR, network and security, operational policy and processes, compliance, sustainability, management, skills/CEO and adoption.
- A detailed migration plan including tooling, workload placement, and suggested approach.
- Plan, design and implement an AWS account and organisation landing zone deployment.
- Comprehensive output report including next steps for successful migration project.
- Potential follow-on access to AWS migration incentives.

## Is this solution right for you?

We have developed an expansive range of services to help you along the entire cloud journey to achieve your business objectives with AWS. By taking a comprehensive approach and using our deep, broad expertise, our services portfolio guides you towards a successful AWS adoption strategy, resulting in your IT team spending less time firefighting and more time creating business value.

### Discover & Plan

We'll gain a full picture of your current and future requirements, exploring the right approach, and then plan how to realise the value through cost-effective solutions.

### Build & Integrate

We can accelerate the deployment of your chosen solution, using our deep expertise and resources to seamlessly install and integrate the right technology.

### Run & Innovate

Depending on your requirements, we can then help you optimise your AWS technology by supporting or managing it on your behalf.

## AWS Competency Programme & Certifications

AWS established the AWS Competency Programme and certifications to help customers identify Consulting and Technology Partners with deep industry experience and expertise.

### Competencies

PARTNER: Migration Services Competency  
PARTNER: Security Services Competency  
PARTNER: AWS Microsoft Workloads Services  
PARTNER: DevOps Service Competency

### Certifications

PARTNER: Solution Provider  
PARTNER: Advanced Tier Services  
PARTNER: Public Sector  
PARTNER: AWS Marketplace Skilled Consulting  
PARTNER: Immersion Day  
PARTNER: Amazon EC2 for Windows Server Delivery  
PARTNER: Well-Architected Partner Program
