# Insight Teamwork Assessment

## For Microsoft 365 and Insight Digital Workspace™

### Business challenge

New generations that have grown up with technology are entering the workforce, bringing new expectations and standards. How we communicate with each other is essential, and employees of all ages now prefer conciseness over long-form modes. Remote and freelance work is also on the rise, putting pressure on leaders to ensure that collaboration is supported in this new paradigm.

### Our solution

The Insight Teamwork Assessment guides you through evaluating your current teamwork environment and business goals and maps out a course for moving forward utilising the Office 365 suite of applications and Insight Digital Workspace™. Receive an actionable roadmap for teamwork that will ensure your employees and suppliers can collaborate effectively and share information securely no matter where they work.

### Business outcomes

Gain a holistic view of your future state by reviewing capabilities across security, teamwork, meetings and change management.

Receive an actionable plan which will assist you on your transformation journey and prepare you to take full advantage of critical Microsoft® applications and Insight Digital Workspace™.

Accelerate digital transformation by aligning your business opportunities and challenges with your IT and organisational readiness.

## Why teamwork?

Research reveals that businesses investing in teamwork are more likely to be high-performing and can realise significant benefits.

- **Increased efficiency** as teams share files and collaborate on documents in real-time
- **Greater flexibility** as ad hoc teams come together to meet specific challenges
- **Increased knowledge** sharing as communications are streamlined on a common platform
- **Enhanced security** as collaboration moves to a unified platform for teamwork
- **Improved personal productivity** through a single pane of glass
- **Employee engagement** with the provision of contextual and relevant communications
